

Consequence Likelihood	Consequence				
	Insignificant No treatment illness	Minor Self-medication illness	Moderate Professional medical treatment required	Major Serious illness requiring hospital treatment	Catastrophic Fatality or multiple fatalities
Almost Certain Expected to occur in most circumstances	Medium	Medium	High	Very High	Very High
Likely Will probably occur in many circumstances	Medium	Medium	High	High	Very High
Possible Might occur in many circumstances	Low	Medium	Medium	High	High
Unlikely Could occur in some circumstances	Low	Low	Medium	Medium	High
Rare May occur only in exceptional circumstances	Low	Low	Low	Medium	Medium

Key	
Low	No further control measures are required to further reduce the risk
Medium	Action is required to identify control measures to further reduce the risk.
High	Immediate action is required to identify control measures to further reduce the risk.
Very High	Work cannot proceed due to an unacceptable level of risk.

Work Activity Type	
ONE	Role works at a FENZ office, in close contact with other workers
TWO	Role works at/visits multiple FENZ sites and works in close contact with workers at more than one site
THREE	Role works at/visits one or more FENZ sites in close contact with others, and meets with/visits other agencies
FOUR	Role works at/visits one or more FENZ and/or other agency sites in close contact with others, and has contact with others in/on an uncontrolled site (e.g. public events, sites, travel)
